With each new edition of the Publication Manual there is a transition period, in which authors continue to submit journal articles and students continue to write papers in the previous edition¢ÃÂÂs style. We recommend that editors and instructors make the switch and adopt the seventh edition Publication Manual in January 2020 or thereafter. In the meantime, we¢ÃÂÂve archived the sixth edition APA Style blog, frequently asked questions pages, and other resources here. These will be available until further notice. The sixth edition APA Style blog was launched in June 2009, on the same day that the sixth edition of theÃ Publication ManualÃ was published. In the 10 years that the blog was active, we discussed all aspects of APA Style, and we answered thousands of questions (in nearly 5,000 comments). Those original posts and comment conversations are still available in an archive. We will keep this archive available until further notice.
